

The Churches of Christ Kalgoorlie are seeking a Senior Minister

The City of Kalgoorlie Boulder is a vibrant community with a population of around 33 000. Our city is a thriving community with most of the facilities that are available in the metropolitan area. Our uniqueness lies in the history and scale of mineral and people wealth.

Churches of Christ has been in the Goldfields for over 125 years and has experienced much growth in over this time. The currently attendance number approx. 270-members with Sundays made up of on average 140 adults with 80 involved in our children's programme.

The Church is community focused and hosts several activities independently. We also work closely with other Churches and Community groups in the city. Through this partnering we see many opportunities to not only communicate God's love, but also enabling our city to better understand the role of the church and a Christian in the community.

We anticipate there may be a transitional period with the existing senior minister to allow sufficient handover and to gain an understanding of our culture and heritage whilst giving the new minister a platform to build on. The Church has built a strong relationship and with community leadership over a long period and has a strong standing in the community.

Housing assistance can be provided along with Salary packaging to best suit the applicant.
